

2020 MEDICAL STUDENT SUMMER RESEARCH FELLOWSHIPS

Guidelines, Instructions, & FAQs

As a premier funder of neurosurgical studies, the **Neurosurgery Research & Education Foundation** (NREF) focuses on providing fellowship funding in basic neuroscience and neurosurgical programs in North America.

Please read this document in its entirety prior to completing the online application. After reviewing the application and the information below, please do not hesitate to contact the NREF via email at grants@nref.org if you still have questions.

APPLICATION DEADLINE: Midnight, Saturday, February 1st, 2020

ADMINISTRATIVE POLICIES AND PROCEDURES FOR FELLOWSHIP GRANT

General Information

The NREF is pleased to offer the **Medical Student Summer Research Fellowship** (MSSRF) program. Fellowships in the amount of \$2,500 will be awarded each year to medical students in the United States or Canada who have completed one or more years of medical school by the start of the fellowship, and wish to spend a summer working in a neurosurgical laboratory, mentored by a neurosurgical investigator sponsor who is a member of the American Association of Neurological Surgeons (AANS).

- **Deadline for Application** - Midnight, Saturday, February 1st, 2020.
- **Period of Fellowship** – Between May and August immediately following the award
- The NREF does not pay for any indirect costs related to our grant awards. Please visit the NREF website, www.nref.org, for program overview. For additional information, please contact the NREF Office at info@nref.org.

PROGRAM INFORMATION

Eligibility

- Medical students who are enrolled in an accredited program in the United States, Canada or Mexico and have completed at least one year of medical school by the start of the fellowship.
- PhD or MD/PhD students, who are presumably committed to research careers, are not eligible for this award.

Fellowship Funding Overlap/Duplicate Funding

- Funding for a fellowship awarded by the NREF through this grant program cannot be duplicated by any other outside funding source. If the individual receives funding from another source for a fellowship awarded by NREF through this program, the institution's Fellowship Program Director must notify the NREF immediately and return the fellowship funding. Notification must be sent to NREF Office by email at info@nref.org.

NREF

NEUROSURGERY RESEARCH
& EDUCATION FOUNDATION

Application Procedure

- The project proposal should include:
 - Title
 - Hypothesis
 - Methods
 - Data analysis
 - Anticipated outcomes
 - NOTE: Including these elements should not be interpreted as a guarantee of an award.
- Submission instructions
 - Log in at <http://www.nref.org/en/GrantApplications/> with AANS log-in
 - If you have never logged in before, please register here, https://online.aans.org/aansssa/censsacustmast.insert_page?p_success_url=https://myaans.aans.org/myaans.aspx.

Notification of Award

- **The foundation expects to notify each applicant by email by April 15, 2020.** However, public announcement is contingent upon receipt of written confirmation from applicants. The foundation reserves the right, in its sole discretion, to extend the date for it to provide notification of awards.

Fiscal Policies and Reports

- Fellowship grant payments will be made in one payment in June.
- At the conclusion of the fellowships, any unexpended balance of \$100 or more must be refunded to the Foundation within forty-five (45) days together with the report of expenditures and accompanying documentation.
- All final reports must be submitted electronically to grants@nref.org.

Publication

- The NREF encourages publication of research findings by fellows, but requires that the NREF is cited as a source of support on the first page of the text.
- When a fellow presents a paper at a professional scientific meeting concerning research findings made during the course of an NREF funded fellowship, the NREF must be cited prior to the beginning of the presentation.
- The NREF should be sent reprints of all papers and publications, including any electronic papers or publications, resulting from work done during the course of a fellowship, even those that appear after the fellowship has concluded.

Frequently-Asked Questions

1. Who should apply for these grants?

- Medical students who are enrolled in an accredited program in the United States, Canada or Mexico and have completed at least one year of medical school before the start of the fellowship.
- PhD or MD/PhD students, who are presumably committed to research careers, are **not** eligible for this award.

2. Is United States Citizenship a requirement to apply?

- No.

NREF

NEUROSURGERY RESEARCH
& EDUCATION FOUNDATION

3. Is there a list of AANS members that I can contact to be my preceptor (sponsor)?

- It is the responsibility of the applicant to find a sponsor who is an AANS member.

4. What type of medical schools are eligible?

- At the present time, we accept applications only from students at allopathic medical schools (e.g., those accredited by organizations such as the LCME).

5. How many awardees per Institution are allowed?

- Usually, no more than one award per year will be given to any one institution.

6. When would the MSSRF fellowship start?

- The fellowship is completed between May and August immediately following the award. A final report is due in early September.

7. How is the application submitted?

- Applications are accepted through the NREF website's grant application portal under the "Apply for Grants" tab, <https://www.nref.org/en/GrantApplications.aspx/>

8. What are the elements of the application?

- All required fields must be completed and the application must be signed
- The application MUST include:
 - Letter of reference from preceptor
 - Letter of reference from medical school dean or faculty member familiar with applicant's scientific interests and abilities
 - Letter of reference from a faculty neurosurgeon either at the student's school or the institution at which they will complete their project
 - Purpose statement
 - Project information
 - Student goals
 - Preceptor statement outlining project and other pertinent information listed on the application
 - A biographical sketch from the student and the preceptor

9. What are the responsibilities of the fellow, if awarded?

- The successful fellow will submit a written report and an abstract within 30 days of the conclusion of the fellowship. The report should be two pages in length and consist of a one-page narrative describing the fellow's personal experience with the fellowship and a one-page abstract (250 words or less), suitable for submission.
- Fellow whose report is judged to be the best submission will receive a travel stipend to attend the next AANS Annual Meeting and the report will be considered for presentation at the meeting.

10. What are the responsibilities of the preceptor?

- The preceptor must be a member of AANS.
- The preceptor is required to submit a bio-sketch in standard NIH format, a statement, and a letter of support.
- The letter of support should verify the preceptor's willingness to mentor the applicant and provide the necessary space and supplies for the applicant during the fellowship period.

NEUROSURGERY RESEARCH
& EDUCATION FOUNDATION

11. When is the application deadline?

- The completed application must be submitted by **midnight (Central Standard Time) on February 1st**.

12. Will applicants be notified that their application has been received?

- An administrative review will take place after February 1 and applicants will be notified of receipt by February 15th. If a notification email is not received by February 15th, please contact the NREF Development office at grants@nref.org.

13. When will applicants be notified of the awardees?

- Notification of awards is expected to be made no later than April 15th.

14. How much funding is available per grant?

- Each award is \$2,500.

15. What does the stipend support?

- The stipend supports two (2) months of salary and is not intended to supplement an additional funding source.

16. Can the stipend be used toward indirect costs?

- No. The stipend is only to be used toward salary support.

17. Can an applicant receive multiple sources of funding for their project?

- No, if a grant is obtained from another source for the same research project, funding will be withheld and given to another applicant.

18. Does the application require a budget?

- No.

19. Can the applicant or applicant's sponsor/neurosurgery program receive the funding directly?

- No, awards will be distributed to the student's school through the grants office typically in June.

20. How does an applicant determine who the institution's Financial Officer is?

- The preceptor listed on your application should advise you on this matter. Typically, the grant officer works in the Office of Sponsored Programs or a similar office.

21. How is the grant administered?

- The NREF is the official administrator of the fellowship. The NREF Development office oversees the application process including receipt, processing, and organizing the review of applications.
- The NREF manages the financial aspects of the fellowships and the distribution of funds to the institution.

22. Does the institution need to sign an agreement?

- Yes, an agreement must be signed and returned to the NREF before the award is provided.

23. Can the applicant submit work for the fellowship that has been accepted for publication?

- No, the applicant cannot be funded for work that has or will be published in the same duration of the fellowship. If it is discovered that work has been published, the applicant will be disqualified.

NREF

NEUROSURGERY RESEARCH
& EDUCATION FOUNDATION

and funding will be revoked.

24. Can the applicant change the subject of the proposal?

- No, after the fellowship has been awarded, the fellow must adhere to the original proposal.

25. Can the applicant choose a topic not related to his/her current medical school program?

- Yes, as long as the research topic is related to neurosurgery and the applicant plans to continue medical school.

26. For letters of reference, what if the preceptor is also a faculty neurosurgeon?

- It is a requirement to submit three letters of reference. If your preceptor is a faculty neurosurgeon, you must get a letter of reference from them as well as another faculty neurosurgeon
- Letters of reference are needed from (1) the preceptor, (2) the Medical School Dean or another appropriate faculty member, and (3) a faculty neurosurgeon

27. Can an institution release letters of recommendation to the student?

- Yes, institutions are allowed to release all letters of recommendation to the student.

28. Are past awardees allowed to submit again with a new project?

- No, this is not allowed.
