NREF Awards 2020 Medical Student Summer Research Fellowships

(June 22, 2020 - Rolling Meadows, Ill.) - The Neurosurgery Research & Education Foundation (NREF) Board of Directors is pleased to announce the 2020 recipients of the NREF Medical Student Summer Research Fellowships (MSSRFs).

With ongoing support from Aaron Cohen-Gadol, MD, FAANS, through royalties from the sale of the COHEN™ Bipolar Forceps from Kirwan Surgical Products to the NREF Medical Student Summer Research Fund. The NREF was able to award twenty medical student fellowships this year.

“Dr. Cohen-Gadol sets a terrific example for others to follow. His generosity demonstrates how one donor’s commitment can provide meaningful and impactful support for a program,” says NREF Chair Michael W. Groff, MD, FAANS.

The MSSRF program offers fellowships in the amount of $2,500 to medical students in the United States or Canada, who have completed one or more years of medical school and wish to spend a summer working in a neurosurgical laboratory, mentored by a neurosurgical investigator sponsor, who is a member of the American Association of Neurological Surgeons (AANS).

Annually, these fellowships go to the brightest and most dedicated students, whose research projects are aimed at the better understanding, treatment and prevention of neurological disorders and improved patient care. “This year’s awardees represent the future of our specialty. It’s an honor to play a role in furthering the NREF mission to support research and educational endeavors,” says Dr. Cohen-Gadol.

The NREF is pleased to announce that the following individuals have been awarded a 2020 Aaron Cohen-Gadol Medical Student Summer Research Fellowship:

- **Andrew Scott Emmert**, Cincinnati Children’s Hospital Medical Center and University of Cincinnati College of Medicine
- **Ashley Dunbar**, Yale University

About the NREF
The NREF is a not-for-profit 501(c)(3) organization created in 1980 by the American Association of Neurological Surgeons (AANS) to support research and education efforts that enhance and confirm the critical role neurosurgeons play in improving lives.

The NREF is dedicated to providing education to neurosurgeons at all stages of their careers, as well as funding research into new and existing neurosurgical treatments, to identify links between best practices and improved outcomes in patient care. Through voluntary public donations, corporate support and donations from allied groups, the NREF supports endeavors that impact the lives of those suffering from epilepsy, stroke, brain tumors, spinal disorders, sports-related head injuries, lower back pain and Parkinson’s disease.
