**Neurosurgery Research & Education Foundation Announces
Winners of the 2020 Cerebrovascular Traveling Fellowship**

March 23, 2020 (Rolling Meadows, Ill.) – The [Neurosurgery Research & Education Foundation](#) (NREF) is pleased to announce that **Andrew W. Grande, MD, FAANS**, and **Grahame C. Gould, MD, FAANS**, have been selected as recipients of the 2020 [Joint Cerebrovascular Section Traveling Fellowship](#). The presentation will be made during the 2020 AANS/CNS Cerebrovascular Section Annual Meeting in August 4-7, 2020, in San Diego.

Drs. Grande and Gould will be conducting their week-long traveling fellowships at the Barrow Neurological Institute under the supervision and mentorship of **Michael T. Lawton, MD, FAANS**.

The Joint Cerebrovascular Section Traveling Fellowship allows a practicing neurointerventionalist of any specialty to visit a high-volume cerebrovascular center for a one-week observership. NREF Education Committee Chair, **Adam S. Arthur, MD, MPH, FAANS**, of Semmes-Murphey Clinic in Memphis, Tenn., and **Clemens M. Schirmer, MD, PhD, FAANS**, of Geisinger Health System in Wilkes-Barre, Penn., oversee this fellowship program. According to Dr. Arthur, “The rapid evolution of our field and the increase in the number of cerebrovascular centers has created a need for this program. Our goal with this fellowship is to facilitate collaboration and the spread of information from experienced centers and operators to those with less experience.”

The program has received enthusiastic support from **Medtronic** and **Microvention**, who’ve provided long-term support that annually funds two fellowships. “The NREF is grateful to our industry partners for their commitment to the NREF mission. Their support will ensure that tomorrow’s neurosurgical leaders continue to receive cutting-edge experiences that expand knowledge and improve patient care,” stated NREF Vice Chair Michael W. Groff, MD, FAANS.

Members can read more about past recipients’ experiences in the [Success Stories](#) section on the NREF website.

The application for the 2021 Joint Cerebrovascular Section Traveling Fellowship will be available beginning September 1, 2020, through the [NREF Online Grant Portal](#). Applicants must be fellowship-trained cerebrovascular/endovascular specialists, board-certified in a specialty and hold a CAST certificate in neuroendovascular surgery, or able to demonstrate significant open cerebrovascular experience and practice.

To apply, one must also have practiced independently for at least five (5) years and be a dues-paying member in good standing with the AANS/CNS Cerebrovascular Section or the Society of NeuroInterventional Surgery (SNIS)..

For more information about the Joint Cerebrovascular Section Traveling Fellowship or other NREF grant programs, contact NREF at 847.378.0500 or info@nref.org.

About the Neurosurgery Research & Education Foundation (NREF)

The Neurosurgery Research & Education Foundation (NREF) is a not-for-profit 501(c)(3) organization created in 1980 by the American Association of Neurological Surgeons (AANS) to support research and education efforts that enhance and confirm the critical role neurosurgeons play in improving lives.

The NREF is dedicated to providing education to neurosurgeons at all stages of their careers, as well as funding research into new and existing neurosurgical treatments, in order to identify links between best practices and improved outcomes in patient care. Through voluntary public donations, corporate support, and donations from allied groups, the NREF supports endeavors that impact the lives of those suffering from epilepsy, stroke, brain tumors, spinal disorders, sports-related head injuries, lower back pain and Parkinson's disease.
